

PRESS RELEASE

Date: 29th October, 2010

Your solution for accurate, reliable high resolution portable industrial weighing for your small product needs!

Kelba (Australia) Pty Ltd, one of the most trusted names in load cells and industrial weighing in Australia, now introduces its own portable high resolution bench scale.

Kelba's KHX series portable bench scales come in four different capacities:

3kg x 0.1 grams

6kg x 0.2 grams

15kg x 0.5 grams

30kg x 1 grams

Each scale comes standard with a 19mm LCD display with blue back lighting for easy viewing, a simple 3 button operation, one by RS232 com port, basic counting function, full tare range, height adjustable feet and level bubble to ensure the scale is level to get the most accurate reading possible.

There are two power sources AC mains power and DC6V4Ah internal rechargeable battery, other great feature of this scale is the AC power supply is a straight 3 pin lead from the scale to the power point there is no plug pack to break. A large 285mm x 240mm stainless steel platter offers the users a bigger than normal platter size for a scale of this category. The overall maximum height of the scale is only 100mm making its low profile easy to use and store.

Ideal uses are check weighing, product ingredients, small freight / postage any where a high resolution weighing application is required.
