

## *Kelba's KHVS-300 Veterinary Scale*

**Kelba's** KHVS Veterinary platform scale is designed to offer the user accurate, reliable and repeatable weighing measurements. The platform scale is made from mild steel with a painted finish and removable stainless steel top for easy cleaning. Four loadcell measuring points with

IPC 20 std Indicator

adjustable feet ensure the Kelba KHVS platform scale is very stable and accurate. With a platform of size 500mm wide by 900mm long makes an easy fit into most Veterinary practice reception rooms where space is at a premium. A choice of indicator displays are available depending on your requirements from LCD AC / Battery powered to Large LED AC powered indicators giving you total flexibility for your business.
