

KELBA's KFS-300 STAINLESS STEEL FLOOR SCALE:

KELBA's Premium KFS Stainless Steel Floor Scale unlike others, utilises a **Stainless Steel load cell** providing the perfect solution for weighing in harsh environments. Available in 150kg x 50 grams or 300kg x 100 grams capacities and coupled with the European built quality SCAIME IP68 indicator, the KFS range offers the ultimate weighing package for commercial use in difficult environments at an affordable price.

Features include removable indicator, counting function, RS232 output for PC or printer, Kg/Lb conversion, Hold mode, peak detection and large Backlit LCD display. A mains power adaptor is provided but the KFS also has an internal re-chargeable battery for true portability.

KELBA's KFS range can be sold as a base only to attach to other indicators, or PLC. Also with Industrial IP68 indicator for wet or harsh environments OR Standard indicator on a pole attached to the base for normal weighing use.

KELBA's KFS series Floor Scales are the choice when reliability counts in harsh weighing environments.

KFS-300 Floor Scale
